Do Not Track Disclosures

Third parties such as advertising networks, analytics providers, and widget providers may collect information about your online activities over time and across different websites when you access or use our Service. Currently, various browsers offer a “Do Not Track” option, but there is no standard for how Do Not Track should work on commercial websites. Due to the lack of such standards, the Site does not respond to Do Not Track consumer browser settings.

Opt-out from internet advertising

Interest-based advertising gives advertisers the chance to show ads that are relevant to you based on your online web browsing behavior. With interest-based advertising, you receive ads and offers that are more likely to be useful to you. Advertisers may also use other information they have or acquire about users’ interests. Users have choices with respect to this type of advertising, as discussed below. You can opt-out of interest-based advertising. If you choose to opt-out you will still see ads, but it is more likely those ads won’t be relevant to you. Interest-based advertising does not depend on information that is personally identifiable to you, such as your name, address, phone number, etc.

Company Web Browser Opt-out: You can click below to opt-out of having the Company Platform used to select ads for your browser based on your online web browsing behavior.

When you opt-out, an opt-out cookie will be stored in your web browser. The Company Platform will know the choice you have made when it sees your opt-out cookie, and will apply your choice to all ads served by the Adkernel Platform. If you block or delete the opt-out cookie, the Platform will not see your choice.

- The opt out cookie may not work if your browser is configured to block third-party cookies.
- If you delete your cookies, you will need to opt out again. There are browser plugins to help you preserve your opt out cookies.
- The opt out only applies to the browser in which you set it. For example, if you set the opt out while using Firefox, but then use Chrome, the opt out will not be active in Chrome. To opt out in Chrome, you will need to repeat the opt out process.
- The opt out does not block or delete cookies, or prevent the use of cookies or other technologies for purposes other than selecting ads based on your interests as inferred by your online behavior. If you opt out, data may still be collected about your web browsing activities and you will still see advertising. Ads may be selected, for example, based on the content of the web page in which they are shown. If you wish to block or delete cookies altogether, you can use web browser settings to do so.

Changes to Policy

From time to time, we may revise this Privacy Policy. Therefore, it is recommended that you read it periodically. All substantial changes made to this policy will be notified on the website, at our sole discretion, and will take effect immediately.
